

**NOTIFICATION OF AVAILABILITY OF
ASBESTOS MANAGEMENT PLAN**

The Asbestos Hazard Emergency Response Act (AHERA) of 1987, required the compilation of all asbestos containing building materials (ACBM), within public and private schools (K-12 grades). This compilation was designed to identify, not only if asbestos was present, but its location, amount, and condition. The compiled data, assessments, and recommendations along with other pertinent information was to be assembled into an Asbestos Management Plan for each school building.

AHERA also requires that asbestos materials identified in the Management Plan be checked every six months by trained school maintenance personnel and that these materials be reinspected by accredited asbestos inspectors every three years to ensure that the materials are maintained in a safe condition. The six month surveillance and the three year reinspections must continue for as long as asbestos remains in the building.

The Evansville Catholic Diocese has complied with the AHERA by developing Asbestos Management Plans for each of the Diocesan Schools, including **Saint Bernard Catholic School** School. The asbestos materials have been routinely monitored and the **2016-17** triennial reinspection has been completed.

The Asbestos Management Plan for **Saint Bernard Catholic** School is available for your review. The Plan is located in the Principal's office, at **207 N. 6th St. Rockport, IN 47635**. The Management Plans for all of the Catholic Diocese of Evansville Schools are available for your viewing in the Administration Office at 4200 N. Kentucky, Evansville, Indiana. The Management Plan may be copied at a nominal fee of 10 cents per page, during regular school hours by notifying the school in advance to prevent scheduling difficulties.

If you have any questions concerning the AHERA Program in **Saint Bernard Catholic School** School, please contact **Mr. Terry Hanaway**, the Designated Person at 812- **649 - 2501**.
